

The Remedy

Aviana

Take a step out of the dark
Your actions, they light up the night
Enlighten me, what is this greater cause
We're on our way
Your walls will tremble for every step that we take
We are coming closer

You live in a dream
Tonights nightmare will be tomorrows reality
Spread the disease, you are a sickness to this world
So spread the disease, we are the remedy

I can hear your screams
I can hear your cries
Your life is a nightmare
With every breath you take
Your life slips further away
With every life you break
Death comes for its lost souls

Your walls will tremble for every step that we take
We are coming closer. Your life is a nightmare
You live in a dream
Tonights nightmare will be tomorrows reality
Spread the disease, you are a sickness to this world
So spread the disease, we are the remedy

The remedy, our water for the flames
The remedy. We're the vaccine, you're the leprocy
