

Applebuckin'

Aviators

I remember that summer I spent with you
Working on the farm, nothing else to do
Now weren't those the days
Why can't it always be that way?
I dream every night of those times we talked
Telling ghost stories up at three o'clock
No point in wishing now
But you're all I think about

I remember those nights out by the lake
We would tell each other it wouldn't fade away
It was those times that made me realize
There was something more than just those memories
Something makes me wish I could go back to see
That sparkle in your eyes
'Cuz I swear I felt somethin'
Last summer, applebuckin'

Do you ever think about the way we used to be
Those sunny days, just you and me
We'd go swimming out back in the pond
You'd keep talking on and on
Do you remember the feeling when we first met
I know that I never will forget
I can't stop thinking 'bout the way
You stole my heart that day

I remember those nights out by the lake
We would tell each other it wouldn't fade away
It was those times that made me realize
There was something more than just those memories
Something makes me wish I could go back to see
That sparkle in your eyes
'Cuz I swear I felt somethin'
Last summer, applebuckin'

Now I know how much you mean to me
With the way you played my heart like a symphony
If I could only somehow go back to
That summer that I spent with you
All I have is those memories
And they mean so much to me
When I think about those times
I can't help but wish you were mine

I remember those nights out by the lake
We would tell each other it wouldn't fade away
It was those times that made me realize
There was something more than just those memories
Something makes me wish I could go back to see
That sparkle in your eyes
'Cuz I swear I felt somethin'
Last summer, applebuckin'

I remember that summer I spent with you
Working on the farm, nothing else to do
I'll never forget that time

Because the thought of you is all I have tonight
