

## Delete

Aviators

Hold on, you can't deny it  
Can't knock it 'til you try it  
You'll never hold a candle to my flame  
And you're just a mind's delusion  
Suffering from mass confusion  
You can't feel just one day without your shame

But you can't drag me down with you  
Delete my number and we're through  
I'm just a puppet in your scheme  
But I'm wiping the slate clean

Delete, delete my number  
And delete, delete my number  
If you can't see what we're doing here we're through  
Delete, delete, delete

But you can't drag me down with you  
Delete my number and we're through  
I'm just a puppet in your scheme  
But I'm wiping the slate clean

Delete, delete my number  
And delete, delete my number  
If you can't see what we're doing here we're through  
Delete, delete, delete

Delete, delete my number  
And delete, delete my number  
If you can't see what we're doing here we're through  
Delete, delete, delete
