

# Dream Again

Aviators

It's been too long  
I've been living in reverse  
I've said more  
Than I could ever rehearse  
I couldn't know  
That I needed time to grow

If I know what love feels like  
Then don't tell me I'm wrong  
I may have been lost back then  
But I guess I was here all along  
The words I said in haste don't matter in the end  
All I wanna do is learn how to dream  
How to dream again

It feels so wrong  
Knowing I'm flawed in my desire  
But I'm still strong  
And I'm a quickly spreading fire  
I won't let go  
I'll let my dreams show

If I know what love feels like  
Then don't tell me I'm wrong  
I may have been lost back then  
But I guess I was here all along  
The words I said in haste don't matter in the end  
All I wanna do is learn how to dream  
How to dream again

(Dream on)  
(Shine bright)  
(Let go)  
(Tonight)

(Dream on)  
(Shine bright)  
(Let go)  
(Tonight)

If I know what love feels like  
Then don't tell me I'm wrong  
I may have been lost back then  
But I guess I was here all along  
The words I said in haste don't matter in the end  
All I wanna do is learn how to dream  
How to dream again
