

# Drive Away

Aviators

It's not about regret  
I just haven't settled yet  
I won't compromise our future  
For the things we'll never get  
In a Monochrome wide expanse  
Where I got locked in a trance  
Now we've got to take our shot  
Or I fear we'll never get the chance

Heads up high and don't look down  
Let's get the hell out of this town  
Drive away and don't turn back  
We'll find a better place than  
These gray and broken towers for miles  
We won't be safe yet for a while  
We'll drive away until the end of the road  
When it feels like home

Meet me out beside the lake  
Where we drowned our past mistakes  
I will always hold these memories  
But that's all I'm gonna to take  
Snap a Polaroid for the road  
For the end of this episode  
I know we've always tried to leave this  
But it's hard to let it go

Heads up high and don't look down  
Let's get the hell out of this town  
Drive away and don't turn back  
We'll find a better place than  
These gray and broken towers for miles  
We won't be safe yet for a while  
We'll drive away until the end of the road  
When it feels like home

We could build our own commune  
Find a way up to the moon  
We could start again offworld  
Across the stars  
There's a way out left for us  
At the city in the dust  
Some say there's a hope  
So far from where we are  
Find the ocean on the coast  
Drive away and leave your ghost  
They'll be looking for us now  
But we'll be gone  
And if they ever find us out  
We'll go as far as they allow  
Then we'll embrace until our end  
As the sky carries us on

Heads up high and don't look down  
Let's get the hell out of this town  
Drive away and don't turn back  
We'll find a better place than

These gray and broken towers for miles  
We won't be safe yet for a while  
We'll drive away until the end of the road  
When it feels like home  
Ooh, ooh, ooh, ooh  
Ooh, ooh, ooh, ooh  
Ooh, ooh, ooh  
Ooh, ooh, ooh  
Ooh, ooh, ooh, ooh  
Ooh, ooh, ooh  
Ooh, ooh
