

How Long Is Forever

Aviators

Lost in time
My open heart
Left behind
A world apart
With nowhere to run
I'm broken and bruised
And I don't want to live without you
A different expanse
Just too far away
You left me without a mainstay

How long is forever in your eyes?
'Cause I'm not giving up on you tonight
I want to believe love never dies
But now it's moving closer to the light
How long will a broken heart stay whole?
'Cause I feel like I'm falling apart inside
I know you're afraid, but don't let go
No, I won't let this be our last goodbye

Crawled through dust
To bring me home
Turned to rust
The house we've known
With nowhere to run
I'm broken and bruised
And I don't want to live without you
A different expanse
Just too far away
You left me without a mainstay

How long is forever in your eyes?
'Cause I'm not giving up on you tonight
I want to believe love never dies
But now it's moving closer to the light
How long will a broken heart stay whole?
'Cause I feel like I'm falling apart inside
I know you're afraid, but don't let go
No, I won't let this be our last goodbye

There's a choice we make
We bend or we break
When we can't keep denying
That nobody is trying
As the bridges burn
We live and we learn
When the world keeps spinning
And nobody is winning

How long will a broken heart stay whole?
'Cause I feel like I'm falling apart inside
I know you're afraid, but don't let go
No, I won't let this be our last goodbye
How long is forever in your eyes?

How long is forever in your eyes?
'Cause I'm not giving up on you tonight

I want to believe love never dies
But now it's moving closer to the light
How long will a broken heart stay whole?
'Cause I feel like I'm falling apart inside
I know you're afraid, but don't let go
No, I won't let this be our last goodbye
