

Immortal

Aviators

We walk along this ashen trail
Through war and fire
They doubted freedom would prevail
We're climbing higher
When the broken call
I will stand up tall
It's all over, there's change in the air
If we fall tonight
I will shine a light
Upon justice, to make this game fair

We are immortal
When destiny reigns
And no one can stop this
Hellbound train
When history listens
Will they know our names?
We are immortal
'Cause Legends remain

We make our own way, we rebuild
The cities razed
Our prophecy is self-fulfilled
For better days
When the broken call
I will stand up tall
It's all over, there's change in the air
If we fall tonight
I will shine a light
Upon justice, to make this game fair

We are immortal
When destiny reigns
And no one can stop this
Hellbound train
When history listens
Will they know our names?
We are immortal
'Cause Legends remain

We rise where heroes fell
Inside a man made hell
Through streets of blood and dust
Where weapons turn to rust
We're the fire
We're the change
We're the lost ones
We're the storm
We're the last
Ammunition
Through the smoke
Through the bruised
Fallen brothers
Pushing on
To save all
Of the others

We are immortal
When destiny reigns
And no one can stop this
Hellbound train
When history listens
Will they know our names?

We are immortal
When destiny reigns
And no one can stop this
Hellbound train
When history listens
Will they know our names?
We are immortal
'Cause Legends remain

(We are immortal...)
