

# Losing Control

## Aviators

I'm feeling watched  
Like no one's on my side  
And I confess  
I feel the stress  
We've got a problem to address  
We're compromised  
The truth unknown  
A secret kept from me  
The worst I fear  
With traitors here  
Our cause will slowly disappear  
Into debris

One of us here's a glitch in the system  
Someone's been hiding in plain sight  
One of us set the gears in motion  
Someone sent from the other side  
To break us  
Take us  
On our knees  
To sabotage  
The movement we  
Uphold  
So I've been told  
We're losing control

No soul to trust  
Suspensions are my own  
I won't let go  
Until I know  
Who's engineered this undertow  
The threat unknown  
I'll never let  
All that we've fought for fall  
It's all for naught  
Until we've caught  
The founder of this evil plot  
They'll never take us all

One of us here's a glitch in the system  
Someone's been hiding in plain sight  
One of us set the gears in motion  
Someone sent from the other side  
To break us  
Take us  
On our knees  
To sabotage  
The movement we  
Uphold  
So I've been told  
We're losing control

Are you a traitor or have I lost my head  
This creeping notion's got me torn into shreds  
Is there a spy  
Here passing by  
Or is there more than meets the eye

I've lost control, I've lost my mind

One of us here's a glitch in the system  
Someone's been hiding in plain sight  
One of us set the gears in motion  
Someone sent from the other side  
To break us  
Take us  
On our knees  
To sabotage  
The movement we  
Uphold  
So I've been told  
We're losing control
