

Stay Dead

Aviators

Bet you'd like to get the freak show started
But my moves work slow
There's a presence here that I've imparted
Centuries ago
When the chilling of the night first hits you
Then you'll know I'm there
You can try to have the legends fix you
But you won't be spared
Balance exists that calls through the abyss
And in the chaos I create again

Go ahead
Bury me
I will not stay dead
Hold me down
Take my breath
I will thrive instead
Cheat the game
Break my stride
You'll see me again
Like the plague
I will spread
'Cause I won't stay dead

'Cause I won't stay dead
'Cause I won't stay dead

Flaunting danger like your head is empty
But I've watched and learned
You look like you never did expect me
As if tides don't turn
I've been known to win out with my patience
There's no cure for fear
You must think it's your imagination
'Cause the devil's here
Risen from bone as the spirits come home
When I awake with a message to send

Go ahead
Bury me
I will not stay dead
Hold me down
Take my breath
I will thrive instead
Cheat the game
Break my stride
You'll see me again
Like the plague
I will spread
'Cause I won't stay dead

'Cause I won't stay dead

You recall
To the past
And ascend
This crevasse

Fused with power
Strong of will
Guided hands
Fail you still
All your might
Gone to waste
I will strike
Leave no trace
None can rise
In my stead
So why can't you just stay dead

Just stay dead
Stay dead
'Cause I won't stay dead
Stay dead
I will not stay dead

Go ahead
Bury me
I will not stay dead
Hold me down
Take my breath
I will thrive instead
Cheat the game
Break my stride
You'll see me again
Like the plague
I will spread
'Cause I won't stay dead

'Cause I won't stay dead
'Cause I won't stay dead
