## Aviators

Can't stop to think about it  
Slave to the brain I doubted  
Feels like a struggle in my tortured body  
Seized up I stop and stammer  
Make me forget my manners  
But I've got warning if you think you want me  
You smack the sense out of me  
Redder than dirty money  
I'm not a monster but you make me wonder  
Put in a blaze of fury  
Eyes getting kind of blurry  
Making me want to roar like thunder

Maybe it's the moonlight  
Mixed with carnal insight  
Violent but it feels right  
You make me come unsheathed  
Like I'm a weapon  
Born and bred to threaten  
'Cause when it feels like heaven  
I wanna bare my teeth

I can't escape the feeling  
Your eyes just left me reeling  
Lonely and gentle like I just might hurt you  
Wrapped in all mixed emotions  
Done going through the motions  
Who gives a fuck if we could let my claws loose  
Cinematic thrills of dating  
We'll get a hard R rating  
Done up and fancy for a horror showdown  
Too much love too inhibit  
Hungry like nature's own exhibit  
You wondered often but you'll know now

Maybe it's the moonlight  
Mixed with carnal insight  
Violent but it feels right  
You make me come unsheathed  
Like I'm a weapon  
Born and bred to threaten  
'Cause when it feels like heaven  
I wanna bare my teeth

You put my head in the zone  
So come on throw me a bone  
Say you can take it  
Now can you take it  
Fucked in the head but I'm in here  
I know you're thrilled by the fear  
Here's our solution  
Natural solution  
The apex versus the prey  
My fangs don't get in the way  
But I can't promise I won't be too hasty  
We've got the time for it all  
You make it impossible

To keep together when you look so tasty

Maybe it's the moonlight  
Mixed with carnal insight

Maybe it's the moonlight  
Mixed with carnal insight  
Violent but it feels right  
You make me come unsheathed  
Like I'm a weapon  
Born and bred to threaten  
'Cause when it feels like heaven  
I wanna bare my teeth

I wanna bare my teeth

You make me wanna show my teeth (teeth, teeth, teeth)  
You make me wanna show my teeth  
You make me wanna show my teeth (teeth, teeth teeth)
