

# The Adventure

## Aviators

Lost inside  
The thought of a journey  
I can't hide  
From the danger around me  
But I know  
That it will be alright  
I'm not alone  
My friends are by my side

When I look around  
I see the world falling apart slowly  
But with another glance I see  
My friends always ready to be there for me  
Sometimes life gets hard  
And I know people get hurt  
But with my friends at my side  
I'm ready to take up me adventure

Nothing at all  
Will take who we are away  
We're gonna turn life  
To an adventure today  
We won't stop  
We won't back down  
I'm on top of the world  
With my friends around

When I look around  
I see the world falling apart slowly  
But with another glance I see  
My friends always ready to be there for me  
Sometimes life gets hard  
And I know people get hurt  
But with my friends at my side  
I'm ready to take up me adventure

Carefully dodging  
Every turn  
Throughout life's problems we live and learn  
Fighting to stay  
On top of your game  
Life has its quirks  
But you're not to blame  
Don't give up  
You've come so far  
With the help of some friends  
You'll find who you are  
Don't stop to think  
Just keep moving on  
Things tend to happen  
Things will go wrong  
But it's not about who you've been  
'Cause it's about who you are  
Sometimes you've gotta get off the ground  
To shoot for the stars

When I look around

I see the world falling apart slowly  
But with another glance I see  
My friends always ready to be there for me  
Sometimes life gets hard  
And I know people get hurt  
But with my friends at my side  
I'm ready to take up me adventure
