

# Trick Me

Aviators

Betwixt the carnival angels  
You rose from a strange hell  
And entered the stage  
Took souls wherever your eyes met  
But you've not begun yet  
The true masquerade

I've never seen an enigma such as you  
Took my heart with a spell and now I'm doomed  
Stuck in trance with a wicked force exhumed

Fearless dancer  
Veiled in dark  
Paraded by your mystery  
With no answer  
I'm bewitched  
You've got the moves to trick me

Like an omen of the end times  
The devil's own part-time  
Cursed paramour  
What could one want with a lowlife  
Brought close to the hot knife  
Deep in the obscure

I've never seen an enigma such as you  
Took my heart with a spell and now I'm doomed  
Stuck in trance with a wicked force exhumed

Fearless dancer  
Veiled in dark  
Paraded by your mystery  
With no answer  
I'm bewitched  
You've got the moves to trick me

You took a risk for me  
I'll solve your mystery  
You've made the watchers in the background fade away  
Surround me with your thorns  
Show me unholy scorn  
Up from a standstill to a hedonist buffet  
I don't think you scare me  
In this place  
So are you gonna dare me  
Kick the pace  
Up to a fevered tempo  
To embrace  
The magic as we let go  
For a deathblow

'Cause you're a  
Fearless dancer  
Veiled in dark  
Paraded by your mystery  
With no answer  
I'm bewitched

You've got the moves to trick me
