

# Never Leave Me

Avicii

I'm always left out, stranded on the fence  
You came along, no ego, no pretense  
In a trance we danced and prayed for no tomorrow  
We were brash and we were bold, but we were right

She knows how I'm feeling  
She banishes all my demons  
So easy, like breathing  
She bandages all my bleeding  
She knows how I love her  
We take it down undercover  
She gets me  
She sees me  
I hope that she'll never leave me  
I hope that she'll never leave me

I'm always left out, chasing innocence  
You came along, you showed me what it meant  
In the days we raced, yeah dreaming of tomorrow  
We were brash and we were bold but we were right

And I reckon we can take our time  
And I reckon we can go a while  
And I'll be there at the borderline  
'Cause I owe you all the best of me

She knows how I'm feeling  
She banishes all my demons  
So easy, like breathing  
She bandages all my bleeding  
She knows how I love her  
We take it down undercover  
She gets me, she sees me  
I hope that she'll never leave me

(Oh-oh-oh-ohh)  
I hope that she'll never leave me  
(Oh-oh-oh-ohh)  
I hope that she'll never leave me

Never leave me  
Never leave me  
Never leave me  
Never leave me  
Never leave me  
Never leave me

She knows how I'm feeling  
She banishes all my demons  
So easy, like breathing  
She bandages all my bleeding  
She knows how I love her  
We take it down undercover  
She gets me, she sees me  
I hope that she'll never leave me
