

Without You

Avicii

D G D
You said that we would always be
Bm A D
Without you I feel lost at sea
D G D
Through the darkness you'd hide with me
Bm A D
Like the wind we'd be wild and free

G A D
You
G D A
Said you'd follow me anywhere
G A D
But your eyes
G D A
Tell me you won't be there

G A D
I got to learn how to love without you
Bm A G
I got to carry my cross without you
A D
Stuck in the middle and i'm just about to
D A G
Figure it out without you
A D
And I'm done sitting home without you
Bm A G
Fuck I'm going out without you
A D
I'm going to tear this city down without you
A G
I'm going Bonnie and Clyde without you

Now I'm running away my dear
From myself and the truth I fear
My heart is beating I can't see clear
How I'm wishing that you were here

You
Said you'd follow me anywhere
But your eyes
Tell me you won't be there

I got to learn how to love without you
I got to carry my cross without you
Stuck in the middle and i'm just about to
Figure it out without you
And I'm done sitting home without you
Fuck I'm going out without you
I'm going to tear this city down without you
I'm going Bonnie and Clyde without you
