

Winter Song

Avishai Cohen

And she's looking outside of her window
Thinking of who she could be if she wasn't with him
Maybe she wants to be with another
Maybe she wants to be

And will she ever know what her feeling are for him
Or will he learn to see that she wants to be free
Maybe she wants to be, wants to be
Maybe she wants to be

And she's looking outside of her window
Thinking of who she could be if she wasn't with him
Maybe she wants to be with another
Maybe she, wants to be

She will not ever be, what she have wanted, even if he will see
, she will not be
She will not ever be, what she have wanted, even if he will see
, she will not be

Wants be, wants to be
maybe she wants to be, wants to be
maybe she wants to be, wants to be
maybe she wants to be

She will not ever be, what she have wanted, even if he will see
, she will not be
She will not ever be, what she have wanted, even if he will see
, she will not be

She will not ever be, what she have wanted, even if he will see
, she will not be
