

Alien

AViVA

I feel like an alien
Just watch the world around me
I feel like an alien
It gets so lonely and I hate it
Is there anybody out there listening from home?
Wish I could go back but I am all alone
I feel like an alien
And I can't explain it
(Please send help)

Feels like I'm crash landing each word that I say
Try to blend right in cause I cannot escape
Going through the motions I'm ready to play
But all these people watch me each move that I make

I know that I will get by
No way, no way to arrive
That means that I
I gotta shut up and try
I gotta give it a try
Feeling so shy

Feels like I'm crash landing each word that I say
Try to blend right in cause I cannot escape

Incoming
I'm crash-landing

I feel like an alien
Just watch the world around me
I feel like an alien
It gets so lonely and I hate it
Is there anybody out there listening from home?
Wish I could go back but I am all alone
I feel like an alien
And I can't explain it

Supersonic senses wish I could relieve
A human perspective I wanna achieve
Feeling so defensive I just wanna sleep
But I am tired of waiting, I'm stuck ankle-deep

I know that I will get by
No way, no way to arrive
That means that I
I gotta shut up and try
I gotta give it a try
Feeling so shy

Supersonic senses wish I could relieve
A human perspective I wanna achieve

Incoming
I'm crash-landing

I feel like an alien
Just watch the world around me

I feel like an alien
It gets so lonely and I hate it
Is there anybody out there listening from home?
Wish I could go back but I am all alone
