

# Black Widow

AVIVA

I felt it from the start  
Things had never been so dark  
Something's rotting in your heart  
Something feels so wrong  
Waiting, but I'm not that strong  
Signs have been there all along

I don't wanna talk  
Cause I'm sick of feeling crazy  
I don't wanna hear  
Your excuses no more maybe  
I don't wanna be  
I don't wanna be  
Here but I cannot leave

I don't want to believe it  
But history it still repeats  
I'm your black  
Black black widow  
Your  
Bla-black black  
Wi-wi-dow  
I don't want to believe it  
But history it still repeats  
I'm your black  
Black black widow  
Your  
Black  
Widow

Darkness pushing through  
When it comes to me and you  
Still don't know what to do  
Trapped and feeling lost  
Calling out but I've become  
The prey, and you're the host

I don't wanna talk  
Cause I'm sick of feeling crazy  
I don't wanna hear  
Your excuses no more maybe  
I don't wanna be  
I don't wanna be  
Here but I cannot leave

I don't want to believe it  
But history it still repeats  
I'm your black  
Black black widow  
Your  
Bla-black black  
Wi-wi-dow  
I don't want to believe it  
But history it still repeats  
I'm your black  
Black black widow
