

BLACKOUT

AViVA

Sneaking out and creeping round
There's nothing you haven't seen now
Say I'm lost but I feel found
Think you're gonna turn me
But you don't see behind the shutters
But you don't want to see behind the shutters

A perfect house, a perfect smile
There's nothing you haven't seen now
Think I'm crazy, stay a while
I know you say you want to
But you don't see behind the shutters
But you don't want to see behind the shutters

There's something dark inside
So don't let in the light
Just don't let in the light

Black out, black out
I hear them calling
Black out, black out
They're calling for your blood
They'll never get enough
Not until you
Black out, black out
Hear them calling

Keeping back until it's found
There's nothing you haven't seen now
Want to change me but I'm fine
Think you're gonna brave me
But when you see you start to shudder
Cause you don't want to see behind the shutters

There's something dark inside
So don't let in the light
Just don't let in the light

Black out, black out
I hear them calling
Black out, black out
They're calling for your blood
They'll never get enough
Not until you
Black out, black out
Hear them calling
(Ooh...)
Hear them calling
(Ooh...)

There's something dark inside
So don't let in the light
Just don't let in the light

Black out, black out
I hear them calling
Black out, black out

They're calling for your blood
They'll never get enough
Not until you
Black out, black out
Hear them calling
(Ooh...)
Hear them calling
(Ooh...)
(See behind the shutters)
(Ooh...)
Hear them calling
(See behind the shutters)
(Ooh...)
