

# BRICK WALL

AViVA

It's like I'm talking to a brick wall  
Staring in the mirror, staring through it all  
Like I'm standing at a closed door  
Looking for an access point to get through  
If I can understand what they're thinking  
Then I gotta get inside, I gotta see it  
Sometimes like to wear my mask, have my reasons  
And that's okay

So I've gotta knock knock knock it down  
Hit the door right down to the ground  
Hit the wall with my axe in hand  
Wanna get through, want to understand

Can't you hear me knocking at the door?  
Can't you hear me hitting down the wall?  
Can't you hear me knocking at the door?  
Knocking at the door, hitting down the wall

It's like I'm waiting at a closed door  
Standing at the window, curtains block it all  
Feels like I'm standing on the cold moors  
Screaming my name they don't hear my call  
If I can understand what they're thinking  
Then I gotta get inside, wanna see it  
Sometimes like to scream in the dark, have my reasons  
And that's okay

So I've gotta knock knock knock it down  
Hit the door right down to the ground  
Hit the wall with my axe in hand  
Wanna get through, want to understand

Can't you hear me knocking at the door?  
Can't you hear me hitting down the wall?  
Can't you hear me knocking at the door?  
Knocking at the door, hitting down the wall
