

Class Clown

AViVA

What happened to the person
You used to be
Your words are filled with poison
And it's killing me
I can't take another second next to you
You make it hard to breathe

It feels like all the walls
Are closing in
And I still see your smile
That evil grin
You're fucking with my head
And I'm done with it
Yeah I'm done with it

I don't wanna to be your class clown
(Hahaha)
The fuck are you laughing at
I don't
Wanna

I don't wanna be your class clown
I'm never gonna be your
Class Clown

Never really fit here inside this scene
I tried to play the part
But I live to win
And now you're asking questions
I don't understand
You make me want to scream

You think all your walls are closing in
How you think I feel
Playing your game
You're fucking with my head
And I'm done with it
Yeah I'm done with it
(I'm done with it)

I don't wanna to be your class clown
(Hahaha)
The fuck are you laughing at
I don't
Wanna

I don't wanna to be your class clown
I'm never gonna be your
Class Clown

Fuck your laughter
Brand-new chapter
I'll never be the same again
(Never be the same again)
I hope that you think it's funny
When I'm standing
On your

Heads
(Yeah)

I don't wanna to be your class clown
I'm never gonna be
Never gonna be
Never gonna be again
