

# CURSED

AViVA

Tearing through the backstreets of my mind  
Why you wanna waste my time  
Thought that we were hanging out  
But now you'll understand  
I got as close as I can

They dragged me down, down, down  
I didn't make a sound  
And now that I'm out now  
You've dragged me down, down, down  
Again

You, you, you've got me  
You, you, you've got me  
Cursed, cursed  
Cursed, got me cursed

You, you, you've got me  
You, you, you've got me  
Cursed, cursed  
Cursed, got me cursed

Running, cause I'm running out of time  
Feel like freedom's slipping from my life  
There's a cure they got me begging for  
But they don't hand it out  
I've gotta get it back

They dragged me down, down, down  
I didn't make a sound  
And now that I'm out now  
You've dragged me down, down, down  
Again

You, you, you've got me  
You, you, you've got me  
Cursed, cursed  
Cursed, got me cursed

You, you, you've got me  
You, you, you've got me  
Cursed, cursed  
Cursed, got me cursed

They dragged me down, down, down  
But I got out, out, out  
Thought I was found, found, found  
You dragged me down, down, down

They dragged me down, down, down  
But I got out, out, out  
Thought I was found, found, found  
You dragged me down, down, down  
Again

You, you, you've got me  
You, you, you've got me

Cursed, cursed  
Cursed, got me cursed

You, you, you've got me  
You, you, you've got me  
Cursed, cursed  
Cursed, got me cursed
