

DARKSIDE

AViVA

Guess the things are terrifying
I'm not saying me, but there's no denyin'
Something else is underlying
Look a little closer, and I'll clarify
You think you already know
The clues you tried to follow
Some things are hard to let go
This warning is (yours alone)

Wolf in sheep's clothes
Don't look too close

Welcome to my darkside
Because I cannot be all light
I embrace my darkside
Say it's okay, it's alright
Welcome to my darkside
Even if it's scary sometimes
Grab my hand and come for the ride
To my dark-darkside

Won't you play with me and all my pretty dolls?
If you look again, you'll see them snap their jaws
Now you're running from the attic, cryin'
Feelin' so unsafe, come on, you're not dyin'
If you tell on me, they will never buy it
They might even think that you are lying

Wolf in sheep's clothes
Don't look too close

Welcome to my darkside
Because I cannot be all light
I embrace my darkside
Say it's okay, it's alright
Welcome to my darkside
Even if it's scary sometimes
Grab my hand and come for the ride
To my dark-darkside

I offered out a chance
But you all closed your doors
What else can I say? My honesty is pure
But to most of them, I'm mystifying
Looking for the answers, but they're scared of prying
Don't look in the mirrors or you'll find me
If you hear the screams intensifying

Welcome to my darkside
Because I cannot be all light
I embrace my darkside
Say it's okay, it's alright
Welcome to my darkside
Even if it's scary sometimes
Grab my hand and come for the ride
To my dark-darkside

Darkside
Dark-darkside
Darkside
Dark-darkside
