

## Demon Mode

AViVA

Went to hell and met some friends  
Ya know it's not that bad  
Cocktails and cigarettes  
For sins I don't regret

But someone thought it best  
To raise me from the dead  
So lets put on a show

I hit my demon mode  
Bow down and pray that I don't take your soul  
You'll never see me coming  
Tucked under the bed  
I'll creep inside your head  
And never let you go

I hit my demon mode

Sticks and stones  
I'll break your bones if you call out my name  
Pentagrams and crooked laughs a curse you can't explain  
Kick up my feet, let the fun begin  
Call out the minions and the skeletons  
Join us or pay the price  
Eternal sacrifice

You're running out of time  
And soon you'll be all mine  
I'll never let you go

I hit my demon mode  
Bow down and pray that I don't take your soul  
You'll never see me coming  
Tucked under the bed  
I'll creep inside your head  
And never let you go

I hit my demon mode
