

# DEMONS

AViVA

Driving me round and round again  
Boys are chasing my mind, I'll leave them behind  
Drawing me higher, nights my friend  
Stars in your eyes shining up from my thighs

Running through the streets without our shoes on  
Hanging every night, to learn a new song  
Trying to be the cutest girl on your arm  
Your arm  
Dancing on the beach hours before dawn  
Trying to sneak home before we got caught  
Everything was real before we'd begun  
Begun

I never thought you'd be the one the open up my mind  
As you stood there by her side  
Suffocating in her lies

Hey!  
What is it you're tryna say  
Sick of all the games you play  
Only when the demons  
Caa--aal

Hey!  
Make me wanna run away  
Why is it you never stay  
Only when the demons  
Caa--aal

With your hands in my hair you pull me in  
Tearing me up inside, body movement my guide  
Smoke on your lips pollutes my fear  
Night after night between sheets we collide

Driving round the streets without our lights on  
Hanging every night, to smoke and to talk  
Trying to be the meanest girl in your car  
Your car  
Lying on the field before we walked home  
Trying not to break the silence you brought  
Tryna hear the truth between the alarm  
Alarm

I never thought you'd be the one the open up my mind  
As you stood there by her side  
Suffocating in her lies

Hey!  
What is it you're tryna say  
Sick of all the games you play  
Only when the demons  
Caa--aal

Hey!  
Make me wanna run away  
Why is it you never stay

Only when the demons  
Caa--aal

I never thought you'd be the one the open up my mind  
As you stood there by my side  
Suffocating in her lies

I never thought you'd be the one the open up my mind  
As you stood there by her side  
Suffocating in her lies

Blazing trails from streets we run  
Blacked out dreams of the songs we sung  
Left alone when the demons come  
They come  
Blazing trails from streets we run  
Blacked out dreams of the songs we sung  
Left alone when the demons come  
They won

Blazing trails from streets we run  
Blacked out dreams of the songs we sung  
Left alone when the demons come  
They come  
Blazing trails from streets we run  
Blacked out dreams of the songs we sung  
Left alone when the demons come  
They won
