

D.G.A.F

AViVA

I'm fighting to find it
The pieces are divided

I'm trying to hide it

You'll still disguise it
Their thoughts collided

It will be the end of me

I'm losing me I'm losing who I want to be
Bounty hunters always lookout keeping keeping track of me
They won't find me if you hide me
I'll keep your secrets safe beside me
Might keep trying to disguise me
But there's no way to divide me

I'm lost in gonna find it all, all
I'm lost I'm gonna find it all

I don't care what your gonna say
I don't give a fuck anyway
I'm not sure what I'm gonna do
Starting to doubt everything I ever thought was true

I don't care what your gonna say
I don't give a fuck anyway
I'm not sure what I'm gonna do
Starting to doubt everything I ever thought was true

My secrets confided
In whispers, I lie in

No response to me

Eye's shut I'm trying
To fake my disguising

No one will ever see

I'll set you free, take you to where you want to be
Eye's will mark the path we walk as gates will open up to me
Don't bind us just hide us
Chasing shadows off a blind path
keep trying to disguise us
But there's no way to divide us

I'm lost in gonna find it all, all
I'm lost I'm gonna find it all

I don't care what your gonna say
I don't give a fuck anyway
I'm not sure what I'm gonna do
Starting to doubt everything I ever thought was true

I don't care what your gonna say
I don't give a fuck anyway

I'm not sure what I'm gonna do
Starting to doubt everything I ever thought was true

I don't know what you're asking of me
Pull back the shadows and set me free
Eyes wide open I'm falling in
Fooled by those lies that you're spinning again

I don't know what you're asking of me
Pull back the shadows and set me free
Eyes wide open I'm falling in
Fooled by those lies that you're spinning again

I don't care what your gonna say
I don't give a fuck anyway
I'm not sure what I'm gonna do
Starting to doubt everything I ever thought was true

I don't care what your gonna say
I don't give a fuck anyway
I'm not sure what I'm gonna do
Starting to doubt everything I ever thought was true
