

Erupt

AViVA

On a war path
Enemies
Make me see everything I believe

Old blaze, can't fade
Pray to god every day but I can't let it go

Dredge up the ground
Black thunderclouds
You can't stop me now

Fire through my veins erupt
Diesel to the flames erupt
Phoenix from the ashes I rise up
You stare, yeah you stare, oh
Fire through my veins go

Oh, oh, oh
Diesel to the flames erupt
Oh, oh, oh

Feel the embers raging, tryna claw back my control
Sure I tried to tame it, feels like I'm just playin' alone

Ready to go, always a show
Subtlety's not my thing you know
In my chanel always on call
Just gotta ask anyone I know
Now I can't contain it
Guess it's time to let that shit go

Dredge up the ground
Black thunderclouds
You can't stop me now

Fire through my veins erupt
Diesel to the flames erupt
Phoenix from the ashes I rise up
You stare, yeah you stare, oh
Fire through my veins go

Oh, oh, oh
Diesel to the flames erupt
Oh, oh, oh
