

HYPNOTIZED

AVIVA

You are poison breathing
Just a fire demon
Take my soul, leave me here
Just a shell, I'm heaving
Deep breath
Deep breath, searching for air I said

We don't want you here
We don't want you here

Cause you didn't need ta
Need ta be this evil
In the end, it's alright
We are all just people
Step back
Step back; lost chance, you hear I said

We don't want you here
We don't want you here

Come join us we want to play
Tell us all your fears
You don't want to run away
Now it's crystal clear

Can't you see you're hypnotized
Locked inside those lies
No don't you go out at night
You'll end up hypnotized
Hypnotized

Da da da da da da
Hypnotized, hypnotized
No don't you go out at night

Try'n walk away but
You cannot escape
Too late now, made your choice
Like I said, too late
Get back
Get back; think you're safe
But you're tripping because I said
We don't want you here
We don't want you here

Come join us we want to play
Tell us all your fears
You don't want to run away
Now it's crystal clear

Can't you see you're hypnotized
Locked inside those lies
No don't you go out at night
You'll end up hypnotized
Hypnotized

Da da da da da da

Hypnotized, hypnotized
No don't you go out at night

Look into my eyes
Find it so appealing
Look into my eyes
Send your body reeling
Now you're hypnotized
Drag you down down down

Look into my eyes
Find it so appealing
Look into my eyes
Send your body reeling
Now you're hypnotized
Drag you down down down

Can't you see you're hypnotized
Locked inside those lies
No don't you go out at night
You'll end up hypnotized
Hypnotized

Da da da da da da
Hypnotized, hypnotized
No don't you go out at night
