

Melancholy

AViVA

Melancholy, you've got me, you've got me
Time is running out
We both felt it throughout
Tell me what's running through your head

Caught, stuck in all of this spiders web
But I know I'm just mislead
So I'll say it once again, you've got me
Now, it's easier to compromise when you're seeing all the sides
But my visions blurred, won't ever stop me

Melancholy, you've got me, you've got me
Now you've got me dragging the chain
Melancholy, you've got me, you've got me
Feels like I've got some blood on the brain

Hear me scream and shout
Caught in this roundabout
Tangled thoughts wrapped up in cotton thread
Didn't want to leave my bed, once again I've been mislead, on my knee

Melancholy, you've got me, you've got me
Feels like I've got some blood on the brain

One, two, three, four
Vicious, knocking at my door
Seven, eight, nine, ten
Burn the candle at both ends
One, two, three, four

Melancholy, you've got me, you've got me
It will never be the same
