

# NEVER ALONE

AViVA

Want you to hear what I say  
It's okay if you're not feeling happy  
Especially when you can't escape  
All of the merry and jolly and sappy  
Want you to hear what I say  
You can be happy and sad at the same time  
Especially when you can't escape  
Know that you're never alone at Christmas

Sick of feeling low  
When everyone's smiling  
Stuck under mistletoe  
And you feel like crying  
All the faces [?]  
But you know they're hiding some reservations

Season comes and goes  
Another reminder  
A time you feel alone  
Just sit by the fire  
Until you can go home  
It's fine, you can make it  
Deep breaths and waiting  
[?] years make everything in perspective  
And one day, you'll see

Want you to hear what I say  
It's okay if you're not feeling happy  
Especially when you can't escape  
All of the merry and jolly and sappy  
Want you to hear what I say  
You can be happy and sad at the same time  
Especially when you can't escape  
Know that you're never alone at Christmas time

No, you're never alone  
I want you to know  
That you're never alone at Christmas

I'm in the house, I'm cold  
Around around the world, waiting  
But as the years go on  
You'll always get braver  
Never get so low  
You can't find a silver lining  
Waiting

Season comes and goes  
Another reminder  
A time you used to feel alone  
Just sat by the fire  
Until you could go home  
I knew you could make it  
No hesitation  
[?] years make everything in perspective  
And one day, you'll see

Want you to hear what I say  
It's okay if you're not feeling happy  
Especially when you can't escape  
All of the merry and jolly and sappy  
Want you to hear what I say  
You can be happy and sad at the same time  
Especially when you can't escape  
Know that you're never alone at Christmas time

No, you're never alone  
I want you to know  
That you're never alone at Christmas time
