AVIVA

I'mma be your nightmare, nightmare  
Leave you feeling so scared, so scared  
But there's no point in running  
Paralysed 'cause I'm coming  
I'mma be your nightmare, nightmare  
Nightmare

I know what you want, you're not gonna get me  
Yeah this is your end  
This is your warning so don't you forget  
Don't you forget  
Don't close your eyes  
'Cause I'm gonna bite  
Better switch on a light  
I am the thing that goes bump in the night  
Bump in the night

You should fear those moments when you're dreaming  
And I know that probably scares you deep inside  
Head to your own demise

I'mma be your nightmare, nightmare (Nightmare)  
Leave you feeling so scared, so scared  
But there's no point in running  
Paralysed 'cause I'm coming  
I'mma be your nightmare, nightmare  
Nightmare  
I'mma be your nightmare, nightmare  
Leave you feeling so scared, so scared  
But there's no point in running  
Paralysed 'cause I'm coming  
I'mma be your nightmare, nightmare  
Nightmare

Don't hold your breath, you're up to your neck  
But I wanted to warn you  
Something to let you prepare for this fight  
Prepare for this fight  
Nothin' holding me back  
Close the gate, we alone now  
No one's holding your hand  
Don't be shy now we meet here again  
Let's end this tonight

You should fear those moments when you're dreaming  
And I know that probably scares you deep inside  
Head to your own demise

I'mma be your nightmare, nightmare (Nightmare)  
Leave you feeling so scared, so scared  
But there's no point in running
