

POISONOUS

AViVA

Nothing ever felt right
Always staring at the ceiling every night
Got me questioning my life
But I made it, made it on my own
They tell me, "Things will turn out fine."
I believe them, let these demons take control
My darkness hidden from the light
They all take it, take it for their own

"Watch where you're walking,"
Said it once to you
Someone's always stalking
You know what they'll do

Poisonous
Everybody trying to poison us
Why is it destroying us?
Everything we touch is poisonous
Poisonous
Everybody trying to poison us
Why do they wanna destroy us?
Everything we touch is poisonous

La la-la-la la
La-la-la-la-la
La la-la-la la
La-la-la-la-la

In the middle of the night
Think you're safe but they're coming out for you
When you dare to close your eyes
They'll surround with all those thorny truths
They told you things will turn out fine
You believe them, let these demons take control
Your darkness hidden from the light
They all take it, take it for their own

"Watch where you're walking,"
Said it once to you
Someone's always stalking
You know what they'll do

Poisonous
Everybody trying to poison us
Why is it destroying us?
Everything we touch is poisonous
Poisonous
Everybody trying to poison us
Why do they wanna destroy us?
Everything we touch is poisonous

La la-la-la la
La-la-la-la-la
La la-la-la la
La-la-la-la-la

Watch where you're walking

Someone's always stalking
Watch where you're walking
(Poisonous
Everybody trying to poison us)
Someone's always stalking
(Why do they wanna destroy us?
Everything we touch is poisonous)

Poisonous
Everybody trying to poison us
Why is it destroying us?
Everything we touch is poisonous
Poisonous
Everybody trying to poison us
Why do they wanna destroy us?
Everything we touch is poisonous

La la-la-la la
La-la-la-la-la
