

Rodeo

AVIVA

Through the lense, I see you, friend
I'm coming out, in the night
On the fence, I'll take a chance
In the now, it'll be alright

Come now, give it a try
Just a little taste, be yourself tonight
Don't gotta get in line
Steppin' in the dark, let it fuel the fire
I said

Hey baby, don't you know
This is my first rodeo
I'm a cowboy in the neon lights
Step aside, this is my time to shine
Pick up your heels, do what you feel
Come and show me one of those [?]
Hey baby, don't you know
This is my first rodeo, yeah
Rodeo, yeah

Feel the high, we could fly
With no more bite, and no more lies
No surprise I'm looking in your eyes
With all to gain, we're on the rise

Come now, give it a try
Just a little taste, be yourself tonight
Don't gotta get in line
Steppin' in the dark, let it fuel the fire
I said

Hey baby, don't you know
This is my first rodeo
I'm a cowboy in the neon lights
Step aside, this is my time to shine
Pick up your heels, do what you feel
Come and show me one of those [?]
Hey baby, don't you know
This is my first rodeo, yeah
Rodeo, yeah

Oh I nailed it
Now saddle up
[?] until the morning light
I just wanna sweat and get wet
Like a rain-forest
With you, on that bull in the club
In the car, under the stars
Come walk with me, shut the door with me
And turn the heat up, real hot

Hey baby, don't you know
This is my first rodeo
I'm a cowboy in the neon lights
Step aside, this is my time to shine
Pick up your heels, do what you feel

Come and show me one of those [?]
Hey baby, don't you know
This is my first rodeo, yeah
Rodeo, yeah
