

SCREAM

AViVA

What you want
I can't be
Never was
Baby who you kidding

But I got
What you need
Come with me
Take a chance on heaven

Said don't trust me
When you crossed over
Can't promise it's alright
Show you my secrets
Watch'em spill over
Drown you in my dark side

Still you try
But you can't tame danger
Should have seen the stop signs
But you try
Thinking love will save you
I'm sorry not this time

Now I have you screaming
Got you wishing that you would've changed your mind
Can't you hear me screaming
Got me tearing at the pieces
Of your mind

What you want
I don't have it
What you see
Is what you're getting

Gonna have you screaming
Got you wishing
That you would've changed your mind

Your visions getting blurring
You're begging, please don't hurt me

Can't turn back
Rules are clear
Now you're here
There is no escaping
Show me your secrets
I'll watch'em spill over
Drowning in our dark sides

Still you try
But you can't tame danger
Should have seen the stop signs
But you try
Thinking love will save you
I'm sorry not this time

Gonna have you screaming
Gonna make you wish you changed your mind boy
Can't you hear me screaming
Got me tearing at the pieces of your mind

What you want
I don't have it
What you see
Is what you're getting

Gonna have you screaming
Gonna make you wish you changed your mind

Your visions getting blurring
You're begging, please don't hurt me

Now I have you screaming
Can't you hear me screaming
Now I have you screaming
You should've changed your mind
Can't you hear me screaming
I'm still tearing at your mind

Gonna have you screaming
Gonna make you wish you changed your mind boy
Can't you hear me screaming
Got me tearing at the pieces of your mind

What you want
I don't have it
What you see
Is what you're getting

Gonna have you screaming
Gonna make you wish you changed your mind

Your visions getting blurring
You're begging, please don't hurt me
