

Wanted me to be your doll  
Someone who'd never fall  
Crystal eyes won't see me again  
Wanted me to heal your soul  
To take you higher on our own  
Wanted to be with me again

Moonlit shadows  
Broken night  
Dancing madness, final flight  
Standing broken on the edge  
I can't believe a word you said

Come to me  
You know you're taking over  
You come to me  
Knowing it's never over  
Moonlit shadows  
Stolen night

Moonlit shadows  
Broken night  
Dancing madness final flight  
Standing broken on the edge  
I can't believe a word you said  
I can't believe a word you said

Blind faith  
To trust I cannot fault  
Your face  
At last it doesn't fall  
I know that I'll be with you again

Blind faith  
To trust I cannot fault  
Your face  
At last it doesn't fall  
I'll never be with you again
