STRANGERS

AViVA

(We're just strangers)
(We're just strangers)

Lookin' at you
I can't believe
You are those things I wanted you to be
Out of my chest
Out of my sleeve
Why is it getting so hard to breathe
I was not the girl you wanted
I was not the girl you see
Out of my chest
Out of my sleeve
Why is it getting so hard to breathe

Can't you hear me calling
Yeah, I'm found, tied to the ground
Can't you hear me calling
And the wind is picking up

You breathe me in, I breathe you out
Yeah, you're cascading down my veins
You breathe me in, I breathe you out
Yeah, my breath is a hurricane
Feels like heaven, now that we're severed
And I'm spinning down (spinning down)
You breathe me in, I breathe you out

We're just strangers
We're just strangers

Try to forget, no way to unsee
That I was different, drunk isn't me
Say no regrets, no guarantees
But how could you do that when you were with me
I am not the girl you want now
I am not the girl you see
Say no regrets, no guarantees
But how could you do that when you were with me

Can't you hear me calling
Yeah, I'm found, tied to the ground
Can't you hear me calling
And the wind is picking up

You breathe me in, I breathe you out
Yeah, you're cascading down my veins
You breathe me in, I breathe you out
Yeah, my breath is a hurricane
Feels like heaven, now that we're severed
And I'm spinning down (spinning down)
You breathe me in, I breathe you out

We're just strangers
We're just strangers

So this is heaven

Now that we're severed
We're just strangers
So this is heaven
Now that we're severed
Yeah, my breath is a hurricane

You breathe me in, I breathe you out
Yeah, you're cascading through my veins

You breathe me in, I breathe you out
Yeah, you're cascading down my veins
You breathe me in, I breathe you out
Yeah, my breath is a hurricane
You breathe me in, I breathe you out
You breathe me in, I breathe you out
We're just strangers
