

TALK THE TALK

AVIVA

(AViVA)

Was always hoping someone had the answer
You came along with words, so smooth, I grabbed them
You played me, now, I play you
Know your game, don't think it's cute
Like you're hiding, looking for the secrets
Chest is tightening, know that I can see that
You played me, now, I play you
Know your games, don't think they're cute

So, what the hell's with you?

You always talk the talk, but never walk the walk
You always talk the talk, and now I'm walking away
You gotta figure out your pieces or you're gonna get caught
You always talk the talk, and now I'm walking away

Oh-oh-oh-oh

Now, I'm walking away, I'm walking away (Oh-oh-oh-oh)

Wasted time, but there's no going backwards
I'm stronger now that I have my own answers
Filled my cup, so, take a look
Made my choices, wrote the book
Suffocating, I chased all my demons
Frightening timing. Maybe, now, you'll see
I filled my cup, so, take a look
Made my choices, wrote the book

So, what the hell's with you?

You always talk the talk, but never walk the walk
You always talk the talk, and now I'm walking away
You gotta figure out your pieces or you're gonna get caught
You always talk the talk, and now I'm walking away

Oh-oh-oh-oh

Now, I'm walking away, I'm walking away (Oh-oh-oh-oh)

Talk the talk (Oh-oh-oh-oh)

You always talk the talk (I'm walking away, I'm walking away)
You always talk the talk (Oh-oh-oh-oh)
You always talk the talk (I'm walking away, I'm walking away)

You always talk the talk, but never walk the walk
You always talk the talk, and now I'm walking away
You gotta figure out your pieces or you're gonna get caught
You always talk the talk, and now I'm walking away

Oh-oh-oh-oh

Now, I'm walking away, I'm walking away (Oh-oh-oh-oh)
