

TWISTED

AViVA

Vicious, you got me
Still I can't believe what you see
Quaking at the knees
What will you do to me
I can see
Pain you can guarantee

Vicious, you got me
Still I can't believe, what you need
Patient absentee
But you still wait for me
Sorting through
All of my life's debris

Ohhh my thoughts keep crashing down
Ohhhh my life's unraveling
Ohhh my thoughts keep crashing down
Keep crashing down

Got me kinda twisted; think you've got me now
Got me kinda twisted; time is running out
Got me in the worst way, got me in the best way
Now you got me thinking, you're no competition
Think you've got it twisted; cause I've got you now

Wicked, kinda dreams
But I'm no ones girl, my blood runs free
Fight for my beliefs
Know what you'll do to me
I can see
Pain you can guarantee

Ohhh your thoughts keep crashing down
Ohhhh your plans unraveling
Ohhh your thoughts keep crashing down
Keep crashing down

Got me kinda twisted; think you've got me now
Got me kinda twisted; time is running out
Got me in the worst way, got me in the best way
Now you got me thinking, you're no competition
Think you've got it twisted; cause I've got you now

Time is running out
Time is running out
Time is running out
Time is running out

Got me kinda twisted; think you've got me now
Got me kinda twisted; time is running out
Got me in the worst way, got me in the best way
Now you got me thinking, you're no competition
Think you've got it twisted; cause I've got you now
