

(Voices)

Petrified and don't believe it  
Tryna hide, but I see ya  
Following shadows, need to  
'Cause they feed you, don't want me to

Voices, voices  
Head is full of voices  
Some are good ones, some are poison  
Following 'cause they feed you  
Fight them off, yes, you need to

What are you afraid of?  
Don't worry about the voices in your head  
What are you afraid of?  
You can fight these monsters, don't be scared  
What you need, you know you got  
So tell me now  
What are you afraid of?  
Don't worry about the voices (Voices, voices) (In your head)

Looking back at your demons  
Kind of friends, 'cause you need them  
Guess you've always got the feeling  
Someone's breathing out there, creeping

Voices, voices  
Head is full of voices  
Some are good ones, some are poison  
Now you've kinda got the feeling  
Someone's breathing, always creeping

What are you afraid of?  
Don't worry about the voices in your head  
What are you afraid of?  
You can fight these monsters, don't be scared  
What you need, you know you got  
So tell me now  
What are you afraid of?  
Don't worry about the voices (Voices, voices) (In your head)

I'm not  
Your guardian angel  
I'm not here to save you  
I'm just watching and waiting  
I'm not  
Your marching leader  
'Cause you know the secrets  
You just gotta believe it

So what are you afraid of?  
Don't worry about the voices in your head  
What are you afraid of?  
You can fight these monsters, don't be scared  
  
What you need, you know you got

So tell me now  
What are you afraid of?  
Don't worry about the voices (Voices, voices) (In your head)  
Don't worry about the voices in your head (In your head, in your head)  
Don't worry about the voices (Voices, voices) (In your head)
