

# Wasteland

AViVA

See you standing right there, right there  
I couldn't change you, wouldn't change a thing  
Tonight I'm watching both your bright eyes  
They're full of danger, full of questioning

Your lips, your touch, it always drives me crazy  
Always drives me crazy  
It's way too much, with you it's never maybe  
(You it's never maybe)

Welcome to the wasteland of our lives  
Come on, we can run away 'cause I gotta get away  
Welcome to the wasteland of our lives  
'Cause we've gotta get away, you and I, you and I

I wanna get away, wanna hide out  
Somewhere they'll never find us  
Tell me that you'll come with me, have an adventure  
Without you it won't be enough

Your lips, your touch, it always drives me crazy  
Always drives me crazy  
It's way too much, with you it's never maybe  
(You it's never maybe)

Welcome to the wasteland of our lives  
Come on, we can run away 'cause I gotta get away  
Welcome to the wasteland of our lives  
Now it's time to hide away, sick of all the games they play  
Best of worst of times, just you and I  
Know they can't find us but they'll try  
Welcome to the wasteland of our lives  
'Cause we've gotta get away, you and I, you and I

(Welcome to the wasteland  
Welcome to the wasteland of our lives  
Welcome to the wasteland  
Welcome to the wasteland of our lives)

Welcome to the wasteland of our lives  
Come on, we can run away 'cause I gotta get away  
Welcome to the wasteland of our lives  
Now it's time to hide away, sick of all the games they play  
Best of worst of times, just you and I  
Know they can't find us but they'll try  
Welcome to the wasteland of our lives  
'Cause we've gotta get away, you and I, you and I
