

## Blast Off!!

Avoid

(I'm talking about marijuana)

Infuse myself sometimes but I know  
It won't keep me very long  
And I'll be waiting  
Confused as hell, don't know where to go  
Wait, where the hell am I?

Can't find my phone  
Where the fuck is home  
Radio stuck on  
Wherever I May Roam  
Headlights so bright  
Running every single light  
Holy shit I'm way too high

Watching and waiting  
Counting seconds 'til I touch down on the moon  
Hold on I think I'm  
Farther than faded  
And it don't mean nothing

Smoke in my lungs  
Pain in my chest  
Can't shake the feeling  
It's just in my head  
I'm hearing the walls  
They're my only friends  
They're telling me now  
It's not gonna end  
Fuck!

I'm gone  
Give it up to me  
I'm gone

Watching and waiting  
Counting seconds 'til I touch down on the moon  
Hold on I think I'm  
Farther than faded  
And it don't mean nothing  
It don't mean nothing

I fucking love my life  
I fucking love being high  
I fucking love writing songs in the middle of the night  
I fucking love my friends  
I fucking love fast cars  
I fucking love this shit (I fucking love it!)

I fucking love my life  
I fucking love being high  
I fucking love writing songs in the middle of the night  
I fucking love my friends  
I fucking love fast cars  
I fucking love it when your mom buys me shots at the bar

I fucking love that shit  
I fucking love it!  
So come quick and take another hit  
And sing it like this (bitch)

Watching and waiting  
Counting seconds 'til I touch down on the moon  
Hold on I think I'm  
Farther than faded  
And it don't mean nothing  
It don't mean nothing

Infuse myself sometimes but I know  
It don't mean nothing  
Confused as hell, don't know where to go  
It don't mean nothing
