

Burn

Avoid

It's over
Let the curtain close
Always free to leave, but I'll never go
And I'm so cynical
Self-destruct, cut it to the bone

I say I'm fine
I'm counting down the seconds
'Til I'm left behind
With my own bad decisions
Put me on the line
I can't keep running

Lie awake in bed, I'm on my own
It's suffocating
Hide behind the shame of what I know
My pulse is racing
Blood lust
I can taste it
Numb, stuck
Can't escape it
Lie awake in bed, I'm on my own
I let it kill me

Deadweight
I'm collateral
Sell me out 'til I'm comatose

Searching for a purpose
Fill my lungs up with pollution
Hear me out

Lie awake in bed, I'm on my own
It's suffocating
Hide behind the shame of what I know
My pulse is racing
Blood lust
I can taste it
Numb, stuck
Can't escape it
Lie awake in bed, I'm on my own
I let it kill me

It's over
Let the curtain close
Always free to leave, but I'll never go
And I'm so cynical
Self-destruct, cut it to the bone

I say I'm fine
I'm counting down the seconds
'Til I'm left behind

Set it off
Let it all
Burn, burn
'Til it crumbles to dust

And there's nothing to call home
Burn, burn
Like a thief in the night
And it comes
With a cost

So hopeless
Loss of purpose
Like a ghost that's trapped in your skin
Let me burn, burn
Burn, burn
