

By Myself

Avoid

Yeah

It's taking over my life
We all need to be set free
From this reality
It's taking over my mind
A simple thought I get lost in
I don't sleep much anymore
I don't feel much anymore

Oh, the end is coming
When I can't be by myself
'Cause these walls are caving in
Can you feel me?
When I'm by myself

I think I'm going insane
Drowning myself in memories
Looking over my shoulder, making friends with my thoughts
Only to see what I've become
No, you'll never take the fight away from me
No, you'll never take the fight away from me

Oh, the end is coming
When I can't be by myself
'Cause these walls are caving in
Can you feel me?
When I'm by myself
Oh, the end is coming
When I can't be by myself
'Cause these walls are caving in
Can you feel me?
When I'm by myself

Can you help me?
Can you help me?
'Cause I'm by myself
Can you help me?
Can you help me?
'Cause I'm by myself
Can you help me?
Can you help me?
'Cause I'm by myself
Can you help me?
Can you help me?
Can you help me?

By myself
By myself

Oh, the end is coming
When I can't be by myself
'Cause these walls are caving in
Can you feel me?
When I'm by myself

When I'm by myself

When I'm by myself
