

Can't Take This Away

Avoid

You can't take this away!
You can't take this away!

I got a feeling like I'm going too off the wall
It's kinda funny how the people around you love to watch you fall
Pushing 90 and it still isn't fast enough
Checkin' the mirror all I see is a cloud of dust
So I'll drive
I'll drive
Until we get it right

Say you will cause I won't
On the phone but I won't call you
Said you change but you don't
Go fuck yourself

I'm just trying to live
A little bit
The way I want to
I don't have a thing to prove
And you can never take this from me
You can't take this away
You can't take this away

I got a feeling like I'm going too off the wall
It's kinda funny how the people around you love to watch you fall
Pushing 90 and it still isn't fast enough
Checkin' the mirror all I see is a cloud of dust
So I'll drive
I'll drive
Until we get it right

I'm going mach 10 downtown while the wind spits in my face
Strapped up, gloves off, bout time you get up out the way
You know it's, El Co to Go Go singing that Song About James
Can't stop, can't stop

I'm just trying to live
A little bit
The way I want to
I don't have a thing to prove
And you can never take this from me
You can't take this away
You can't take this away

Say you will cause I won't
On the phone but I won't call you
Said you change but you don't
Go fuck yourself
