

# COWABUNGA

Avoid

All alone  
You can't find me anywhere like I  
Want you to

Falling faster than I meant to be  
Don't expect your fucking sympathy  
All my sights are blurry, I can't see  
That I'm sinking faster than I used to sink

All alone  
You can't find me anywhere like I  
Want you to  
I get so far away

All alone  
You can't find me anywhere like I  
Want you to  
I get so far away (So far away)  
Going to  
Get myself back, leave the rest alone  
Get so far away

Sometimes, I bite my tongue when I don't wanna see it  
Sink through the open hole, I did this to myself  
Bury me, bury me  
Seems like I could use it  
This won't better me, better me

All alone  
You can't find me anywhere like I  
Want you to  
I get so far away (So far away)  
Going to  
Get myself back, leave the rest alone  
Get so far away

Falling faster, fading further  
Got to find a way to find myself again  
Hiding somewhere  
I get so far away  
(I get so far away)

All alone  
You can't find me anywhere like I  
Want you to  
I get so far away (So far away)  
Going to  
Get myself back, leave the rest alone  
Get so far away

Falling faster, fading further  
(I get so far away)  
Falling faster, fading further  
Got to find a way to find myself again  
I get so far away
