

## Finish Line

**Avoid**

Bite your tongue

Keep my name out of your mouth

Goddamn, save your breath, waste of life

I'm not listening

Leave the bullshit behind

It's you against me

I'll always be the one to speak my mind

You're a parasite, a fucking living lie

I've waited too long, it's time to set the record straight

I gave you a chance

Now there's nothing left, no going back

You once made me a promise

There's only one thing left to say

You're dead to me

You're dead to me

You're dead to me

Me

Haha, fuck you

Fuck
