If It Hurts

Avoid

I say goodbye to your love
All the pain that you cause
Made a mess out of everything
And I don't care if hurts
You kept on making it worse
Another memory burned away

I know you never even thought of
How you could turn into the problem
I tried to keep myself away
But I know it's not worth hanging on

I say goodbye to your love
All the pain that you cause
Made a mess out of everything
And I don't care if hurts
You kept on making it worse
Another memory burned away

I don't want to think
I don't wanna feel
I just wanna drown myself...
I don't want to think
I don't wanna feel
I just wanna drown myself...

I say goodbye to your love
All the pain that you cause
Made a mess out of everything...

I say goodbye to your love
All the pain that you cause
Made a mess out of everything
And I don't care if hurts
You kept on making it worse
Another memory burned away
