

## Over Now

Avoid

I'm done  
You gave me something to believe in  
And then you said I'm coming on too strong  
I'm tryna tell you how I feel  
I've been think this was real  
Now I wonder where it all went wrong

So tell me something cause I don't know  
Or give me something that could  
Change your mind  
You got some issues you can't see through  
I got some issues that ain't with your time

I'm searching for something that's over now  
Around the world in a minute, we're spinning out  
Can't find a place for me to breakdown  
I'm tryna find if there's a way out  
I'm searching for something that's over now

I gave you something to believe in  
I don't wanna talk  
Don't wanna give another reason  
You said we're climbing to the top  
Making everybody watch  
Breaking necks when we walk in

So tell me something cause I don't know  
Or give me something that could  
Change your mind  
You got some issues you can't see through  
I got some issues that ain't with your time

I'm searching for something that's over now  
Around the world in a minute, we're spinning out  
Can't find a place for me to breakdown  
I'm tryna find if there's a way out  
I'm searching for something that's over now

Buried under the waste of all the lies you fucking feed

Bitch I'm drowning

I can't let this go  
Weigh me down until I choke  
And I'm searching

I'm searching for something that's over now  
Around the world in a minute, we're spinning out  
Can't find a place for me to breakdown  
I'm tryna find if there's a way out  
I'm searching for something that's over now
