

Shapes

Avoid

Just put me to sleep
Don't know what I believe
I'm on my own
Falling through the unknown
There's no direction
Nowhere left to run
I found myself alone and lost

No more drifting endlessly
'Cause I am who I am
That's all I'll ever be
Oh, oh
Oh, oh

My body is rotting out
Must be a side effect of hatred and doubt
The world is spinning, I can't remember the last time I felt real (I felt real)
I'm insane, I've lost control of my mind
The truth is I would rather die
All I've ever really wanted to be was something I will never find

No more drifting endlessly
'Cause I am who I am
That's all I'll ever be
This is not the end of me
So let go, understand
This is reality

No more drifting endlessly (The same shapes in my mind make me)
No more drifting endlessly (The same shapes in my mind make me)

My body is rotting out
Must be a side effect of hatred and doubt
The world is spinning, I can't remember the last time I felt real

No more drifting endlessly
'Cause I am who I am
That's all I'll ever be
That's all I'll ever be (All the same shapes in my mind make me)
That's all I'll ever be (All the same shapes in my mind make me)
Me, they make me
