

Split (Kill It)

Avoid

Just kill it, kill it, kill it
Until it's dead and gone

I feel it starting to take over my body now
The panic feels like a drug I think I'm blacking out

White noise in silence
My thoughts becoming way too loud
Your words are useless
Now don't you make another sound

Oh! My body's going numb
My thoughts are piling up
And I can't seem to find a way out
Oh! Does anybody know
Can I just kill it, kill it, kill it
Until it's dead and gone

Can you even hear me
I'm dying to make you understand
Tear open my chest
Is my heart still beating, beating?

I hit the bottle like it's air straight to my lungs
Just stay away 'cause you don't like who I become
I can't help the panic taking over me
I can't help the voices in my motherfucking head
I feel it taking over me
Paralysis setting in

Oh! My body's going numb
My thoughts are piling up
And I can't seem to find a way out
Oh! Does anybody know
Can I just kill it, kill it, kill it
Until it's dead and gone

Can you even hear me
I'm dying to make you understand
Tear open my chest
Is my heart still beating, beating?

Don't make another sound

Oh! My body's going numb
My thoughts are piling up
And I can't seem to find a way out
Oh! Does anybody know
Can I just kill it, kill it, kill it
Until it's dead and gone

Kill it, kill it, kill it
Until it's dead and gone
