

# close to you

AVRALIZE

All my words remain unsaid  
Drowning deep down in my own regret  
When will I reveal myself  
Figure it out think I could use some help  
Figure it out think I could use some help  
Figure it out think I could use some

I'm chasing shadows  
Lost in the night  
Follow the rhythm  
Till you're out of sight

Cause all my words remain unsaid  
Drowning deep down in my own regret  
When will I reveal myself  
And figure it out think I could use some help

The compass broke  
The map is torn in two  
I'm out in the open guide me close to you

The compass broke  
The map is torn in two  
I'm out in the open guide me close to you  
The echos of doubt  
Are louder than the truth  
I'm reaching out  
Nothing left to loose

Lost in the night  
What if I'm broken  
Not meant to fly  
All my words remain unsaid  
Drowning deep down in my own regret  
And I feel like poisoning myself  
Yeah I could use some help

The compass broke  
The map is torn in two  
I'm out in the open guide me close to you  
The echos of doubt  
Are louder than the truth  
I'm reaching out  
Nothing left to loose

Yeah yeah

Alright yo  
Get your hands together right now  
Come on  
Oh yeah  
Keep it going

The compass broke  
The map is torn in two  
I'm out in the open guide me close to you  
The echos of doubt

Are louder than the truth  
I 'm reaching out  
Nothing left to loose
